## DELEGATES LICENSE RENEWAL AUTHORITY TO DANUBIA PATENT OFFICE

Under the Hungarian government Decree No 30 of 1950, transactions resulting in the indebtedness of a resident of Hungary to a foreigner are subject to license by the Foreign Exchange Authority. The registration or renewal of patents abroad is therefore subject to license.

Licensing of foreign exchange transactions in connection with foreign patents owned by national enterprises, including foreign trade, as well as industrial and other enterprises, has been transferred from the Ministry of Finance to the Ministry of Foreign Trade.

The Ministry of Foreign Trade in turn, has delegated authority to the Danubia Patent Office to act without foreign exchange license in registering and renewing international patents abroad. This authority is restricted to patents owned by a state enterprise when the registration or renewal of the patent is necessary in the interest of Hungarian exports.
